

Williams Reports Fourth-Quarter and Full-Year 2019 Financial Results

February 19, 2020

TULSA, Okla.--(BUSINESS WIRE)-- Williams (NYSE: WMB) today announced its unaudited financial results for the three and 12 months ended Dec. 31, 2019.

Full-year 2019 Results Reflect Year-Over-Year Growth Compared with 2018

- Net income from continuing operations attributable to Williams available to common stockholders of \$862 million – up \$1.0 billion over 2018
- Net income from continuing operations per share is \$0.71 vs. net loss of \$0.16 for 2018
- Adjusted income per share is \$0.99 – up 25% over 2018
- Cash flow from operations of \$3.69 billion – up 12% over 2018
- Adjusted EBITDA of \$5.02 billion, up \$377 million or 8% over 2018
- DCF of \$3.30 billion – up \$425 million or 15% over 2018

Solid Execution Delivers Strong 4Q 2019 Results

- Net income from continuing operations attributable to Williams available to common stockholders of \$138 million – up \$710 million over 4Q '18
- Net income per share of \$0.11 vs. net loss of \$0.47 per share in 4Q '18
- Adjusted income per share of \$0.24 – up 26% over 4Q '18
- Cash flow from operations of \$991 million – up \$29 million or 3% over 4Q '18
- Adjusted EBITDA of \$1.284 billion – up \$87 million or 7% over 4Q '18
- Distributable Cash Flow ("DCF") of \$828 million – up \$80 million or 11% over 4Q '18
- Dividend coverage ratio is 1.80x
- Debt (Net of Cash) to adjusted EBITDA at quarter end: 4.39x

Impressive Business Performance With Records Set for Adjusted EBITDA, Gathering Volumes and Transportation Capacity

- Record 2019 adjusted EBITDA driven by strong growth in Atlantic-Gulf and Northeast G&P
- Record 4Q gathered volumes of 13.3 Bcf/d, up 10% over 4Q 2018; YTD record 12.9 Bcf/d, up 5% over 2018
- Record 4Q '19 firm reserved transportation capacity of ~21.8 Bcf/d, up 8% over 4Q '18, driven by expansion projects including the Gateway and Rivervale South to Market expansions in the Northeast and the North Seattle Lateral expansion in the Northwest

CEO Perspective

Alan Armstrong, president and chief executive officer, made the following comments:

"Williams achieved yet another year of record results in 2019, once again delivering impressive year-over-year growth and exceeding guidance midpoints in our key financial metrics while dramatically reducing capital expenditures. These results were underpinned by our strong operations – we set records for both gathered volumes and firm reserved transportation capacity, and our safety metrics continue to improve. We also generated cash in excess of dividends and capital expenditures, reflecting the combined impact of strong business performance, capital discipline and our ongoing portfolio optimization efforts. These results are driving improvement in our credit metrics. Looking ahead to 2020, our disciplined approach to capital allocation should allow us to fully fund our increased dividend and capital expenditures with internally generated cash flows.

"Williams remains extremely well-positioned to capture long-term sustainable growth with our natural gas focused strategy. We continue to see demand for new transport capacity along our premier interstate transmission systems, and the scale and location of our deepwater Gulf of Mexico assets provide a strong competitive advantage to capture emerging growth opportunities. Our resilient G&P business can not only withstand current market pressures, but is also well-positioned to generate long-term value as demand for natural gas continues to grow."

Armstrong added, "Natural gas has been – and will continue to be – a cornerstone of our nation's prosperity in the 21st century and a critical part of our clean energy future. Abundant, low cost and reliable natural gas has driven significant reductions in U.S. CO₂ emissions, lowered consumers' utility bills and paved the way for investment in renewables. As the American energy leader that safely handles 30% of the nation's natural gas, Williams' large-scale infrastructure is ready to meet continued demand growth, both in the U.S. and abroad."

Amounts in millions, except ratios and per-share amounts. Per share amounts are reported on a diluted basis. Net income (loss) amounts are from continuing operations attributable to The Williams Companies, Inc. available to common stockholders.

	2019	2018	2019	2018
GAAP Measures				
Net Income	\$138	(\$572)	\$862	(\$156)
Net Income Per Share	\$0.11	(\$0.47)	\$0.71	(\$0.16)
Cash Flow From Operations	\$991	\$962	\$3,693	\$3,293
Non-GAAP Measures (1)				
Adjusted EBITDA	\$1,284	\$1,197	\$5,015	\$4,638
Adjusted Income	\$293	\$230	\$1,200	\$775
Adjusted Income Per Share	\$0.24	\$0.19	\$0.99	\$0.79
Distributable Cash Flow	\$828	\$748	\$3,297	\$2,872
Dividend Coverage Ratio	1.80x	1.82x	1.79x	1.69x
Other				
Debt-to-Adjusted EBITDA at Quarter End (2)	4.39x	4.80x		
Capital Investments (3)(4)	\$408	\$868	\$2,476	\$4,153

(1) Schedules reconciling adjusted income from continuing operations, adjusted EBITDA, Distributable Cash Flow and Coverage Ratio (non-GAAP measures) to the most comparable GAAP measure are available at www.williams.com and as an attachment to this news release.

(2) Debt-to-Adjusted EBITDA ratio does not represent leverage ratios measured for WMB credit agreement compliance or leverage ratios as calculated by the major credit ratings agencies. Debt is net of cash on hand, and Adjusted EBITDA reflects the sum of the last four quarters.

(3) Capital Investments includes increases to property, plant, and equipment, purchases of businesses, net of cash acquired, and purchases of and contributions to equity-method investments.

(4) YTD 2019 excludes \$728 million (net of cash acquired) for the purchase of the remaining 38% of UEO as this amount was provided for at the close of the new Northeast JV by our JV partners, CPPIB, in June 2019.

GAAP Measures

- Fourth-quarter 2019 net income benefited from \$69 million of increased service revenues driven by Transco expansion projects, the consolidation of UEOM revenues beginning in March 2019, and growth in Northeast G&P volumes. These improvements were partially offset by lower revenues from our Barnett Shale operations primarily associated with reduced recognition of non-cash deferred revenue and the end of a contractual minimum volume commitment (MVC) period.
- Fourth-quarter 2019 also benefited from \$1.7 billion lower net asset impairments, partially offset by \$692 million due to the absence of 4Q '18 gains on asset sales and \$141 million associated with the absence of 4Q '18 gains from the deconsolidation of certain businesses.
- Full-year 2019 net income benefited from \$431 million of increased service revenues primarily due to the same drivers affecting 4Q '19, partially offset by the absence of revenues from operations sold or deconsolidated during 2018, as well as a \$138 million decline in commodity margins.
- The full year also benefited from \$1.7 billion lower net asset impairments, partially offset by the absence of \$692 million in gains on asset sales in 4Q '18 as well as \$203 million associated with gains from the deconsolidation of certain businesses in 2018.
- Full-year 2019 net income also reflects lower income attributable to non-controlling interests due to the WPZ merger in 2018 and an increased provision for income taxes in 2019 driven by higher pre-tax income.
- The increase in cash flow from operations for fourth-quarter and full-year 2019 periods were largely driven by the increased service revenues as previously described and the collection of Transco's filed rates, some of which is subject to refund. The YTD 2019 period also benefited from the receipt of an income tax refund.

Non-GAAP Measures

- The increase in adjusted EBITDA for 4Q 2019 and full-year 2019 largely reflects the previously mentioned increased Transco and Northeast G&P service revenues and the benefit of Transco's recently settled general rate case. Lower commodity margins partially offset the higher service revenues in full-year 2019.
- Adjusted income for both the quarter and full-year periods also improved, driven by the higher adjusted EBITDA. The full-year period variance also reflects less income attributable to noncontrolling interests driven by the WPZ merger, partially offset by higher interest expense associated with financing obligations for leased pipeline capacity and an increased provision for income taxes.
- Fourth-quarter and full-year 2019 DCF are higher, reflecting the increased adjusted EBITDA and lower maintenance capital, partially offset by higher net interest expense. The full-year increase also benefited from an income tax refund received in 2019.

Business Segment Results & Form 10-K

Williams' operations are comprised of the following reportable segments: Atlantic-Gulf, West, Northeast G&P and Other. For additional information, please see the company's 2019 Form 10-K, which Williams expects to file next week with the Securities and Exchange Commission (SEC). Once filed, the document will be on the SEC and Williams websites.

Amounts in millions	Quarter-To-Date						Year-To-Date					
	Modified EBITDA			Adjusted EBITDA			Modified EBITDA			Adjusted EBITDA		
	4Q 2019	4Q 2018	Change	4Q 2019	4Q 2018	Change	2019	2018	Change	2019	2018	Change
Atlantic-Gulf	\$212	\$605	(\$393)	\$570	\$529	\$41	\$1,895	\$2,023	(\$128)	\$2,300	\$1,931	\$369
West	311	(906)	1,217	336	358	(22)	1,232	308	924	1,351	1,577	(226)

Other	5	20	(15)	1	6	(5)	6	(29)	35	23	40	(17)
Totals	\$895	\$19	\$876	\$1,284	\$1,197	\$87	\$4,447	\$3,388	\$1,059	\$5,015	\$4,638	\$377

Note: Williams uses Modified EBITDA for its segment reporting. Definitions of Modified EBITDA and Adjusted EBITDA and schedules reconciling to net income are included in this news release.

Atlantic-Gulf

- Fourth-quarter and full-year 2019 modified and adjusted EBITDA reflect increased service revenues from Transco expansion projects placed in service and the benefit of Transco's recently settled general rate case, partially offset by lower revenues from Gulfstar. Projects placed into full-service in 4Q '19 include the Gateway and Rivervale South to Market expansions serving the Northeast.
- Fourth-quarter and full-year 2019 modified EBITDA were negatively impacted by a \$354 million impairment of the Constitution Pipeline project, of which Williams' 41% share was \$145 million, as well as the absence of an \$81 million prior-year gain on the sale of certain Gulf Coast pipeline assets.
- Full-year 2019 modified EBITDA was also negatively impacted by lower equity AFUDC due to lower levels of construction activity and severance expenses.
- The impairment charges, gains on asset sales and severance expenses reflected in modified EBITDA are excluded from adjusted EBITDA.
- The company filed a formal stipulation and agreement for Transco's rate case with the FERC on December 31. All comments received during the public comment period were in support of the settlement. The company anticipates FERC approval of the settlement in second-quarter 2020.

West

- Fourth-quarter and full-year 2019 modified and adjusted EBITDA reflect the absence of revenues from operations either sold or deconsolidated and lower revenues in Barnett Shale and Mid-Con, partially offset by higher revenue in Eagle Ford, Haynesville, the Conway fractionation and storage business and growth in JV EBITDA from Rocky Mountain Midstream. Fourth-quarter 2019 experienced an improvement in commodity margins driven by marketing activities, while full-year 2019 was unfavorably impacted by lower NGL prices.
- The lower revenue at Barnett Shale noted above was primarily associated with reduced recognition of non-cash deferred revenue and the end of a contractual MVC period. Lower revenues in Mid-Con noted above were due to lower rates and volumes.
- Fourth-quarter and full-year 2019 modified EBITDA were favorably impacted by the absence of the \$1.8 billion impairment of certain Barnett Shale gathering assets in 2018, partially offset by the absence of a \$591 million gain on the 2018 sale of our Four Corners operations.
- The impairment charges and gains on asset sales reflected in modified EBITDA are excluded from adjusted EBITDA.
- Fourth-quarter and YTD 2019 results reflect higher gathering volumes in the Eagle Ford, Haynesville, and Rocky Mountain Midstream systems. Eagle Ford gathering volumes increased by 9% versus 4Q '18 and by 10% YTD over 2018. Haynesville gathering volumes increased by 21% versus 4Q '18 and by 12% YTD over 2018. Rocky Mountain Midstream gathering volumes grew dramatically on a percentage basis, achieving an average of approximately 270 MMcf/d in 4Q 2019.

Northeast G&P

- Improvement in modified and adjusted EBITDA for 4Q and YTD 2019 was driven by increased service revenues from the Susquehanna Supply Hub, the Utica Shale region, and Ohio Valley, as well as the acquisition of Utica East Ohio Midstream in March 2019. The YTD improvements also reflect higher proportional EBITDA from our Appalachia Midstream investment driven by the Marcellus South system.
- The 4Q and YTD 2019 periods reflect increases in gross gathering volumes, including 100% of operated equity-method investments, of 12% and 15%, respectively, over the same reporting periods in 2018.

Williams' Fourth-Quarter 2019 Materials to be Posted Shortly; Q&A Webcast Scheduled for Tomorrow

Williams' fourth-quarter 2019 earnings presentation will be posted at www.williams.com. The company's fourth-quarter 2019 earnings conference call and webcast with analysts and investors is scheduled for Thursday, Feb. 20, at 9:30 a.m. Eastern Time (8:30 a.m. Central Time). A limited number of phone lines will be available at (800) 353-6461. International callers should dial (334) 323-0501. The conference ID is 8801169. A webcast link to the conference call is available at www.williams.com. A replay of the webcast will be available on the website for at least 90 days following the event.

About Williams

Williams (NYSE: WMB) is committed to being the leader in providing infrastructure that safely delivers natural gas products to reliably fuel the clean energy economy. Headquartered in Tulsa, Oklahoma, Williams is an industry-leading, investment grade C-Corp with operations across the natural gas value chain including gathering, processing, interstate transportation and storage of natural gas and natural gas liquids. With major positions in top U.S. supply basins, Williams connects the best supplies with the growing demand for clean energy. Williams owns and operates more than 30,000 miles of pipelines system wide – including Transco, the nation's largest volume and fastest growing pipeline – and handles approximately 30 percent of the natural gas in the United States that is used every day for clean-power generation, heating and industrial use.

Non-GAAP Measures

This news release and accompanying materials may include certain financial measures – Adjusted EBITDA, adjusted income (“earnings”), adjusted earnings per share, distributable cash flow and dividend coverage ratio – that are non-GAAP financial measures as defined under the rules of the SEC.

Our segment performance measure, Modified EBITDA, is defined as net income (loss) before income (loss) from discontinued operations, income tax expense, net interest expense, equity earnings from equity-method investments, other net investing income, impairments of equity investments and goodwill, depreciation and amortization expense, and accretion expense associated with asset retirement obligations for nonregulated operations. We also add our proportional ownership share (based on ownership interest) of Modified EBITDA of equity-method investments.

Adjusted EBITDA further excludes items of income or loss that we characterize as unrepresentative of our ongoing operations. Management believes this measure provides investors meaningful insight into results from ongoing operations.

Distributable cash flow is defined as Adjusted EBITDA less maintenance capital expenditures, cash portion of net interest expense, income attributable to or dividends/ distributions paid to noncontrolling interests and cash income taxes, and certain other adjustments that management believes affects the comparability of results. Adjustments for maintenance capital expenditures and cash portion of interest expense include our proportionate share of these items of our equity-method investments. We also calculate the ratio of distributable cash flow to the total cash dividends paid (dividend coverage ratio). This measure reflects Williams' distributable cash flow relative to its actual cash dividends paid.

This news release is accompanied by a reconciliation of these non-GAAP financial measures to their nearest GAAP financial measures. Management uses these financial measures because they are accepted financial indicators used by investors to compare company performance. In addition, management believes that these measures provide investors an enhanced perspective of the operating performance of assets and the cash that the business is generating.

Neither Adjusted EBITDA, adjusted income, nor distributable cash flow are intended to represent cash flows for the period, nor are they presented as an alternative to net income or cash flow from operations. They should not be considered in isolation or as substitutes for a measure of performance prepared in accordance with United States generally accepted accounting principles.

Adjustments for tax-related items ⁽³⁾	—	—	110	—	110	—	—	—	—	—
Adjusted income from continuing operations available to common stockholders	\$ 159	\$ 143	\$ 243	\$ 230	\$ 775	\$ 273	\$ 313	\$ 321	\$ 293	\$ 1,200
Adjusted income from continuing operations - diluted earnings per common share ⁽¹⁾	\$.19	\$.17	\$.24	\$.19	\$.79	\$.22	\$.26	\$.26	\$.24	\$.99
Weighted-average shares - diluted (thousands)	830,197	830,107	1,026,504	1,212,822	976,097	1,213,592	1,214,065	1,214,165	1,214,212	1,214,011

(1) The sum of earnings per share for the quarters may not equal the total earnings per share for the year due to changes in the weighted-average number of common shares outstanding.

(2) Our partners' \$209 million share of the fourth-quarter 2019 impairment of the Constitution pipeline project is reflected below in Allocation of adjustments to noncontrolling interests.

(3) The third quarter of 2018 reflects tax adjustments driven by the WPZ Merger, primarily a valuation allowance for foreign tax credits.

Less tax effect for above items		—	
Adjusted income available to common stockholders	\$1,160	\$1,310	\$1,460
Adjusted diluted earnings per common share	\$ 0.95	\$ 1.08	\$ 1.20
Weighted-average shares - diluted (millions)		1,218	

Forward-Looking Statements

The reports, filings, and other public announcements of Williams may contain or incorporate by reference statements that do not directly or exclusively relate to historical facts. Such statements are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act) and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements relate to anticipated financial performance, management’s plans and objectives for future operations, business prospects, outcome of regulatory proceedings, market conditions, and other matters as discussed below. We make these forward-looking statements in reliance on the safe harbor protections provided under the Private Securities Litigation Reform Act of 1995.

All statements, other than statements of historical facts, included in this report that address activities, events, or developments that we expect, believe or anticipate will exist or may occur in the future, are forward-looking statements. Forward-looking statements can be identified by various forms of words such as “anticipates,” “believes,” “seeks,” “could,” “may,” “should,” “continues,” “estimates,” “expects,” “forecasts,” “intends,” “might,” “goals,” “objectives,” “targets,” “planned,” “potential,” “projects,” “scheduled,” “will,” “assumes,” “guidance,” “outlook,” “in-service date,” or other similar expressions. These forward-looking statements are based on management’s beliefs and assumptions and on information currently available to management and include, among others, statements regarding:

- Levels of dividends to Williams stockholders;
- Future credit ratings of Williams and its affiliates;
- Amounts and nature of future capital expenditures;
- Expansion and growth of our business and operations;
- Expected in-service dates for capital projects;
- Financial condition and liquidity;
- Business strategy;
- Cash flow from operations or results of operations;
- Seasonality of certain business components;
- Natural gas and natural gas liquids prices, supply, and demand;
- Demand for our services.

Forward-looking statements are based on numerous assumptions, uncertainties, and risks that could cause future events or results to be materially different from those stated or implied in this report. Many of the factors that will determine these results are beyond our ability to control or predict. Specific factors that could cause actual results to differ from results contemplated by the forward-looking statements include, among others, the following:

- Availability of supplies, market demand, and volatility of prices;
- Development and rate of adoption of alternative energy sources;
- The impact of existing and future laws and regulations, the regulatory environment, environmental liabilities, and litigation, as well as our ability to obtain necessary permits and approvals, and achieve favorable rate proceeding outcomes;
- Our exposure to the credit risk of our customers and counterparties;
- Our ability to acquire new businesses and assets and successfully integrate those operations and assets into existing businesses as well as successfully expand our facilities, and to consummate asset sales on acceptable terms;
- Whether we are able to successfully identify, evaluate, and timely execute our capital projects and investment opportunities;
- The strength and financial resources of our competitors and the effects of competition;
- The amount of cash distributions from and capital requirements of our investments and joint ventures in which we participate;
- Whether we will be able to effectively execute our financing plan;
- Increasing scrutiny and changing expectations from stakeholders with respect to our environmental, social and governance practices;
- The physical and financial risks associated with climate change;
- The impact of operational and developmental hazards and unforeseen interruptions;
- Risks associated with weather and natural phenomena, including climate conditions and physical damage to our facilities;
- Acts of terrorism, cybersecurity incidents, and related disruptions;
- Our costs and funding obligations for defined benefit pension plans and other postretirement benefit plans;
- Changes in maintenance and construction costs, as well as our ability to obtain sufficient construction related inputs including skilled labor;
- Inflation, interest rates, and general economic conditions (including future disruptions and volatility in the global credit markets and the impact of these events on customers and suppliers);
- Risks related to financing, including restrictions stemming from debt agreements, future changes in credit ratings as determined by nationally recognized credit rating agencies, and the availability and cost of capital;
- Changes in the current geopolitical situation;
- Whether we are able to pay current and expected levels of dividends;
- Additional risks described in our filings with the Securities and Exchange Commission.

Given the uncertainties and risk factors that could cause our actual results to differ materially from those contained in any forward-looking statement, we caution investors not to unduly rely on our forward-looking statements. We disclaim any obligations to and do not intend to update the above list or announce publicly the result of any revisions to any of the forward-looking statements to reflect future events or developments.

In addition to causing our actual results to differ, the factors listed above may cause our intentions to change from those statements of intention set forth in this report. Such changes in our intentions may also cause our results to differ. We may change our intentions, at any time and without notice, based upon changes in such factors, our assumptions, or otherwise.

Because forward-looking statements involve risks and uncertainties, we caution that there are important factors, in addition to those listed above, that may cause actual results to differ materially from those contained in the forward-looking statements. These factors are described in the following section. For a detailed discussion of those factors, see Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K filed with the SEC.
